

Suzanna Macden booked a Target industrial video!

The Rock Agency has booked more commercials and on-camera jobs this year than ever before!

As our on-camera bookings grow so does our need for experienced actors. If you are looking to be more marketable...this workshop is perfect. Previous students cannot say enough about the workshop. Beyond being one of the most fun activities they have participated in, this workshop helped them to overcome auditioning fears, and it helped them book more jobs!
